

THE BLUE CATALOGUE

# AN EVOLUTION OF ART & SCIENCE OF FINE WOODWORKING

Timeless creations, passionately crafted with a meticulous attention to detail, designed for both modern and classical styles of interior design: this is the rationale that lies at the heart of Art For Everyday - a modern woodcarving company steeped in the art of architectural design.

Since first opening our doors in 1998, Art for Everyday has quickly evolved into an internationally recognized, premier woodcarving company. From developing a new design concept, to creating a prototype, to filling a client's order, all work is done on the premises. This allows our principals to oversee the entire operation and ensure the highest standards of quality are met. We are just as dedicated to the art and science of fine woodworking as we are to the customers we serve, making every customer our priority, acquiesce to every request.

From the flamboyant, florid flourishes of the **Renaissance**, to the bold, dramatic and complex styles of the **Baroque Period**, to the artistic, imaginative and whimsical character of the **Rococo Age**

These are the eras to which our master carvers and computer technology experts at Art For Everyday turn for inspiration to create original and highly detailed works of art.

Building on extensive professional training, decades worth of industry knowledge, expertise, and initiating creative talent, our master carvers and 3D designers take pride in their craftsmanship and design, allowing them to be widely recognized for their incredible attention to detail and unerring accuracy. It is the outstanding aptitude, our strong client-oriented approach, our bold vision and commitment to excellence embraced by our partners, that have driven the remarkable success of the 50,000 ft<sup>2</sup> Canadian based company we are proud to call our own.

Passion for Excellence. Quality Driven. Awe-Inspiring Designs. Exquisite Carvings.  
**Unveiled at Art For Everyday Inc.**
